

HI-PLA MSDS

High Impact Polylactide

1. Identification of the substance/mixture and of the company/undertaking

Product Name: AzureFilm HI-PLA

CAS No.: See Section 3

Identified Uses: For fused deposition modeling (FDM) 3D printing

Manufacturer: AzureFilm d.o.o

Address: Orleška cesta 16, 6210 Sežana, Slovenia

Tel/Fax: +386-05-731-19-02

Emergency telephone number: +386-05-731-19-02 or call LOCAL POISON CONTROL CENTER

2. Hazards identification

Emergency Overview

Not likely to be irritant in the solid form. Burning produces obnoxious and toxic fumes. Avoid prolonged contact with skin and contact with eyes. Not likely to form a dust in the solid filament form

Potential Acute Health Effects

Inhalation: Not likely to form an inhalable dust in the solid filament form and for the intended use. Aerosols generated during printing may cause shortness of breath, tightness of the chest, a sore throat and cough.

Eye: Direct contact with eyes may cause irritation

Skin: May cause slight skin irritation

Ingestion: Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Potential Chronic Health Effects

Carcinogenic Effects: No known carcinogenic effects

Mutagenic Effects: No known mutagenic effects

Teratogenic Effects: No known teratogenic effects

Developmental Toxicity: No known developmental toxicity

3. Composition/information on ingredients

Chemical Name	CAS No.	Weight %	Exposure Limits
Polylactide (PLA)	26100-51-6	80-100 %	None
Acrylic polymers	Company secret	0-20 %	None

4. First aid measures

Inhalation: In the case of inhalation of gases generated during combustion of the material, it is necessary to move the injured person outside and supply with fresh air. Seek medical treatment

Skin contact: Wash hands with soap and water. In contact with molten material, immediately flush with cool water. DO NOT PULL solidified material off skin.

Eye contact: Rinse immediately with plenty of water. In contact with molten product, immediately flush with cool water. Seek medical treatment.

Ingestion: Do not induce vomiting. Get medical advice/attention if you feel unwell

Notes for the doctor: Treat symptomatically

High Impact Polylactide

5. Fire-fighting measures

General information: As in any fire, wear self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Suitable Extinguishing Agents: Foam, water, carbon dioxide (CO₂), Dry chemical, Alcohol resistant foams are preferred if available. General-purpose synthetic foams (including AFFF) or protein foams may function, but much less effectively

Products of Combustion: Burning produces obnoxious and toxic fumes, aldehydes, carbon monoxide (CO) and carbon dioxide (CO₂).

Special Fire Fighting Procedures: Firefighters should wear self-contained breathing apparatus and full fire-fighting turn-out gear (bunker gear). Keep personnel removed and upwind of fire. Water should be used to keep fire-exposed containers cool.

Special Remarks on Fire and Explosion Hazards: Toxic gases/vapors/fumes may emit in a fire.

6. Accidental release measures

General: Wear gloves when handling hot melt of the material. Do not inhale vapors and fumes generated if the material is overheated – Use local exhaust ventilation during processing

Environmental precautions: Prevent entry to sewers and public waters

Methods and material for containment and cleaning up: Shovel into suitable container for disposal.

7. Handling and storage

Precautions: Avoid contact with the molten material. Avoid eating, drinking and smoking in work areas

Handling: Wear gloves when handling molten material. Low hazard for usual industrial or commercial handling.

Storage: Do not store outside. Keep container dry and store in original packing. Keep in cool, well-ventilated place.

8. Exposure controls/personal protection

Ventilation protection: Use local exhaust ventilation during processing.

Skin protection: Avoid contact with molten material or wear gloves.

Eye and face protection: Safety glasses if necessary.

General: Wear protective clothing to prevent contact with molten material.

9. Physical and chemical properties

Appearance: Filament, Solid

Color: Various

Odor: Odorless

pH: Not applicable

Melting point: > 140 °C

Boiling point: Not applicable

Density: 1.20 - 1.30 g/cm³ at 20 °C

Vapor pressure: Not applicable

Partition coefficient (n -octanol/water): Not applicable

Solubility(ies): Not determined

Flash point: Not determined

Auto-ignition temperature: Not determined

HI-PLA MSDS

High Impact Polylactide

10. Stability and Reactivity

Stability: Stable under recommended storage conditions

Polymerization: Not applicable

Dangerous Decomposition Products: Burning produces obnoxious and toxic fumes. Aldehydes. Carbon monoxide (CO). carbon dioxide (CO₂).

Conditions to avoid: Temperatures above 230 °C.

Materials to avoid: Organic solvents, strong bases, oxidizing agents

11. Toxicological information

Routes of entry: N.A.

Acute toxicity: Not likely to cause targeted organ effects or skin allergic reactions.

12. Ecological information

Mobility: No data available

Bioaccumulation: The main resin is biodegradable.

Ecotoxicity effects: Data not available.

13. Disposal considerations

Waste Disposal Methods: In accordance with local and national regulations. Do not contaminate ponds, waterways or ditches with chemical or used container. Contact manufacturer if needed.

14. Transport information

No a DOT controlled material (United States)

Proper Shipping Name: Not regulated

Hazard Class: Not regulated

UN. NO.: Not regulated

Packing Group: Not regulated

IMDG EMS: Not regulated

15. Regulatory information

European/International Regulations

This product is on the European Inventory of Existing Commercial Chemical Substances.

European Labeling in Accordance with EC Directives

Hazard Symbols: N/A

Risk phrases: N/A

Safety phrases: N/A

HMIS (U.S.A.):

Health Hazard: 0

Fire Hazard: 1

Reactivity: 0

Personal Protection:

HI-PLA MSDS
